

Menu Plans

Last Modified on 02/14/2019 3:29 pm CST

Minute Menu CX offers several options for planning menus:

Master Menus

A master menu is a menu for a specific date and meal. The menu can be pushed out to centers or pulled down by the center themselves. You may create one or multiple master menu plans depending on your needs.

For example, you can create a master menu for October - December for sites A, B, and C, and another master menu for October - December for sites D, E, and F. S

See [Master Menus](#) for more information.

Sponsor Menu Templates

A sponsor menu template is a reusable menu that is meal-specific (but not date-specific). Menu templates created by sponsors are available to all centers. Menu templates can help expedite the menu planning process. You can also use menu templates to build your master menus.

For example, you can create a menu template for breakfast. Your center can then use this template on any day they want.

See [Menu Templates](#) for more information.

Center Menu Templates

A center menu template is a reusable menu that is meal-specific (but not date-specific). Centers can only see the templates they create (and any sponsor menu templates). They cannot view templates created by other centers.

For example, a center can create a menu template for lunch. The center can then use this template on any day they want.

See [Menu Templates](#) for more information.
