[VIDEO] KidKare for Centers

Center staff can use KidKare to record meal counts and attendance from a smart phone, tablet, or computer. They can also do the following:

- Create menus and menu templates.

- Enroll children via eForms or manually.

- Perform the Milk Audit.

- Enter receipts and vendors.

- Submit claims to you.

- Run reports.

Watch the video below to learn more about what your centers can do in KidKare!

Use the Center Access Settings in your own version of KidKare to control what features your centers can and cannot access. See Control Center Access to KidKare Features for more information. Centers can find helpful articles and tutorials at the KidKare Knowledge Base. You can also send them our KidKare Features for Sponsored Centers cheat sheet.
