You can control what areas of Minute Menu CX a center's administrator can access.

**Note:** These permissions only take effect if **Policy A.12** is set to **Y**.

1. Click the **Tools** menu and select **Center Administrator Permissions**. The Center Administrator Permissions window opens.
2. Check the box next to each permission to assign to the center administrator. Click **All** to assign all permissions to the center administrator.
3. Click **Save**.
